Specs/General Info:

For inground pools and spas

Weighted Energy Factor (WEF): 3.6

115V / 208-230V (dual voltage) single speed pump

1.5 inch internal slip (2 inch external slip) and quick-disconnect plumbing union for faster disassembly

Features a heavy-duty, 56-square flange motor designed for quiet operation

TEFC (Totally Enclosed Fan-Cooled) motor design

Enhanced design and balanced flow enable greater efficiency and reduced operating costs

Improved design that stands up to demanding installations and conditions

Cam and Ramp Lid permits easy inspection and cleaning of the strainer basket

Thick-walled body parts for durability, with a small footprint for easy installation on compact pads
