Specs/General Info:

For inground pools and spas; can operate as a stand-alone or with automation systems.

The Hayward super pump vs variable speed pump provides between 600-3450 RPM

230V Single Phase variable speed super pump

1.5" x 2" Union Connections for intake and discharge

Self-Priming with a lift of up to 8 feet above water level

Fully programmable, rotatable touchpad control (can be wall-mounted)

Totally enclosed fan cooled (TEFC) permanent magnet motor design

Industry-leading hydraulic design provides incredibly quiet operation

Swing-away hand knobs make easy strainer cover removal from the pump without tools

Extra-large 110 cubic inch strainer basket
